

Report on a SAMPLE Vehicle

This is the Basic Report. It shows the exact sections, order and depth you receive on that plan, with every data field replaced by the word SAMPLE. Nothing is held back: what you see here is what a live Basic Report contains.

Plan	Basic Report

Odometer Status	SAMPLE

In a live report the estimated mileage is not the current reading. It is an average worked out from similar vehicles registered in the same state.

Title Records

SAMPLE. A live report lists every title record returned for the vehicle: issuing state, title date, title number status and any brand applied by the titling authority.

Accidents

SAMPLE. A live report confirms whether an accident has been reported to the national database by a state authority, with the date and reported severity where available.

Junk, Salvage and Total Loss

SAMPLE. A live report shows any junk or salvage record filed by an insurance carrier, recycler or salvage yard, and whether a carrier has ever declared the vehicle a total loss.

Title Brand Problem Checks

Every brand below is checked against the national record.

What the Premium plan adds

The Basic plan ends here. On Premium and above the same report continues with full standard and optional equipment, interior and exterior specification, safety equipment, crash test ratings, fuel economy, warranties, awards, a five year cost of ownership projection and a manufacturer profile.

How your report reaches you

Delivery	By email, within 2 hours of your payment clearing
Sent to	The email address you entered at checkout
Cannot find it?	Check your junk or spam folder before contacting us
Still missing?	Email info@globalmotorcheck.com and we resend it the same day

A note that saves you waiting: the report arrives as an email attachment, and filters sometimes put a first email from a new sender into junk or spam. If the time above has passed and nothing has arrived, look there first. It is the answer nine times out of ten.

About this sample

Global Motor Check publishes this document so you can see the structure and depth of the Basic Report before you buy it. It is not a record of any vehicle. A real report is produced only after a valid 17 character VIN is submitted, and is built from national title and brand databases, insurance and salvage filings, manufacturer recall notices and published specification data. A vehicle history report is not a substitute for an independent physical inspection, and you are encouraged to arrange one as well so that hidden damage can be found.
